AEG-HSB-L500
OFFICE SAFE BOX

AEG-HSB-L500

OFFICE SAFE BOX

OFFICE SERIES

This product is designed and built to offer resistance against fire and burglary. It is ideally recommended to suit the requirement of retail outlets, business houses and other end users for keeping limited amounts of cash, valuables and documents.

Body.

It is constructed of special high-density proofing material encased in steel to offer proven resistance against oxyacetylene and conventional tools attacks.

Door.

The door is press-formed with the lock case as an integral part of the door structure, encasing massive specially reinforced material against drills, oxyacetylene attacks and mechanical tools. Special steel bars are incorporated to further strengthen the barrier material.

Locking Mechanism:

The standard locking system for this series is a three wheel combination lock and a 7 lever keylock. In addition, deadlock device is incorporated to jamming up the bolt work mechanism if forcible attacks are made on the door and the locks. An anti-punch device is designed and constructed on the mechanism.

Internal Fittings:

It is supplied with adjustable shelf and lockable drawer.

Finish:

Available in one tone light grey finish.
